## Solar Swim Pools and Spas Winter Promotion

Beat the HST  
Order your pool by  
July 1<sup>st</sup> 2010 and  
save the blended  
tax.

### Radiant Insulated Above Ground/On Ground, Pool Promotion

#### *"The only pool that pays for itself"*

Radiant Pool R-10 Insulated walls resist heat loss from the water to the soil more efficiently than any other type of pool wall. With the use of a solar blanket, heat gained from the sun is retained, maintaining the water temperature overnight, when other types of pools lose up to 10 degrees F.

The Radiant insulated wall panels help the water heat up faster and keep the water warmer longer, extending the swimming season by up to 2 months.

**Metric Series**

*Great for sloping sites.*

**Now, until May 1<sup>st</sup> 2010, buy any size Radiant Pool Package and receive a Robotic Pool Cleaner**

**FREE**
